DETAILED ACTION

Response to Amendment

Amendment, filed on September 10, 2003, has been entered and acknowledged by the examiner.

Allowable Subject Matter

Claims 1-28 are allowed.

Regarding claim 1, the following is an examiner's statement of reasons for allowance: The prior art of record neither shows nor suggests an organic light emitting device including the combination of all the limitations as set forth in claim 1, and specifically wherein the organic light emitting device is an annealed structure with an annealing temperature from about 60° to less than about 100°C, with an annealing time from about 0.25 hours to about 25 hours, and heating and cooling rates from about 0.5°C/min to 20°/min could not be found elsewhere in prior art.

Regarding claims 2-28, claims 2-28 are allowed for the reasons given in claim 1, because of their dependency status on claim 1.
